

A Charge-And-Play Mobile Gaming Experience

The ergonomic L-shaped design on this 60W cable promotes a comfortable charge-and-play mobile gaming experience. It fits perfectly well with hand placements to play games and keep battery levels up at the same time. Plus, the case-friendly design allows most mobile devices to be recharged without needing to remove the case.

Reliable Strength From Meticulous Design

The flexible ridges on this 22 AWG cable were inspired by an electric current, offering better protection from damage by safely bending and releasing tension from the cable wires. The PET braided material prevents tearing and fraying from everyday use. In fact, it provides ultra durable strength with a bend test pass rating of 30,000 times.

Swift Speed, Durable Design

Sync & Charge Cable

Boost Link LK50CC/LK50CL

Features

- 22 AWG cable supports output power up to 60W (max 3A) for a rapid charging experience
- Sync and charge with high-speed data rates up to 480Mbps
- L-shaped design provides a more comfortable fit for a charge-and-play mobile gaming experience
- PET braided material provides ultra durable strength with a bend test pass rating of 30,000 times
- Flexible ridges inspired by an electric current on the L-shaped design offer better protection from direct or indirect damage by safely bending and releasing tension from the cable wires
- Case-friendly design enables it to connect to most mobile devices without needing to remove the case
- 100cm/3.3ft. length is suitable for most applications
- Includes a strap for more convenient storage

Specifications

USB Type-C to USB Type-C

- Total Power Output: up to 60W (Max 3A)
- Output: USB Type-C: 5V \rightarrow 3A / 9V \rightarrow 3A / 15V \rightarrow 3A / 20V \rightarrow 3A
- Length: 100cm/3.3ft
- Weight: 28.5g
- Material: PET Braided
- Color: Gray
- Available Interface (Output): Type-C
- Available Interface (Input): Type-C
- Certification: Green Dot, RoHS, Recycling Codes, WEEE
- Warranty: 12 months, 24 months(EU)

USB Type-C to Lightning

- Total Power Output: up to 60W (Max 3A)
- Output: Lightning: 5V \rightarrow 2.4A / 9V \rightarrow 2A / 15V \rightarrow 2A / 20V \rightarrow 3A
- Length: 100cm/3.3ft
- Weight: 29g
- Material: PET Braided
- Color: Gray
- Available Interface (Output): Lightning
- Available Interface (Input): Type-C
- Certification: MFi, Green Dot, RoHS, Recycling Codes, WEEE
- Warranty: 12 months, 24 months(EU)
